

Why Trionics?

1. Dedicated and professional staff with more than 100 years combined experience.
2. Stocking warehouse that ships most orders the same day of receipt.
3. No minimum dollar value on orders. No drop-ship fees. No per-order handling fee. Order what you need, when you need it.
4. Optimum quality charts and pens. In most cases, we represent the manufacturers who are the recommended sources by the OEM's.
5. A company that offers you the product quality and service level you deserve.

Manufactured to the highest quality standards, Trionics distributes products to fit all of the following recorders and many more:

- **ABB Kent-Taylor**
- **American Meter**
- **Anderson Instruments**
- **Barton**
- **Bristol**
- **Chessell**
- **Foxboro**
- **Honeywell**
- **Partlow**
- **Yokogawa**

Heat Treating and Manufacturing

Heat treating and manufacturing facilities often encounter specialized needs for charts. We can work with your engineers and testing facility to have special charts produced and stocked for your convenience.

Food and Dairy

Whether a small operation or a large plant, we know that you may not need (or want) to buy large quantities of charts or pens and we think that you should not have to pay extra to purchase in smaller quantities.

Trionics has no minimum order quantities (for stocked products) enabling you to purchase what you need, when you need it. We will ship your order the same day for orders received by 4pm CST. For recurring product orders, we will work with your purchasing staff to ensure we have the products you require **in stock and ready for shipment** as your needs dictate.

Oil and Gas

The Oil and Gas industry is a rugged environment that demands reliable equipment and accurate recording charts and pens that will perform in the most adverse conditions.

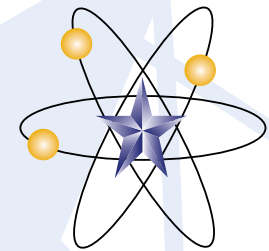

At Trionics we test charts to verify their performance, accuracy and pen/ink compatibility. We work closely with the worlds leading manufacturers of these products to provide you with both the highest performing and most cost effective products for your application.
